

ROYAL WOOD

OUTDOOR SAUNA COLLECTION

The Base Series

Clean, functional, built to last.

ROYAL S · ROYAL M · ROYAL L

MADE IN LATVIA

WHY THIS SAUNA

Everything that matters.

The Base shares its entire structure with the Premium. The same micro CLT shell, the same 8 mm toughened glazing, the same sealed flat roof, the same stainless fixings. What changes is the lining: solid aspen benches sit against the panel face, and the money goes into the build rather than the finish.

Solid aspen bench seating, on a micro CLT shell.

ENGINEERED PANELS

Solid cross-laminated timber, cut and drilled to tolerance, with 8 mm toughened glazing and a sealed flat roof.

GOES WHERE PODS CANNOT

Panels are carried by hand, one at a time. A standard side gate, a roof terrace, a lakeside plot with no vehicle access.

BUILT IN AN AFTERNOON

Two to four people, forty minutes to two hours, ordinary hand tools. No crane, no foundation, no trades.

MADE IN LATVIA

EU certified materials with the documentation to match. Declarations of performance available on request.

TECHNICAL DATA

Specification.

CONSTRUCTION

Micro CLT panels, stainless steel bolts and fixings, sealant tape

GLASS

Tempered 8 mm glass, grey

EXTERNAL OPENINGS

Wooden frame window and door

EXTERIOR

Double coated lazure. Grey, black or brown

ROOF

Water resistant, flat-top weather coat

INTERIOR

Solid aspen seats

LIGHT

LED strip under seat, battery powered

DIMENSIONS

MODEL	WIDTH	LENGTH	HEIGHT	SEATS	FLOOR
ROYAL S	1.30 m	1.60 m	2.00 m	2	2.08 m ²
ROYAL M	2.00 m	1.60 m	2.00 m	4	3.20 m ²
ROYAL L	2.50 m	1.60 m	2.00 m	6	4.00 m ²

Height stated without support feet. Add 50 mm for installed height.

DRAWINGS

Every dimension.

Front elevation and side section for every model.

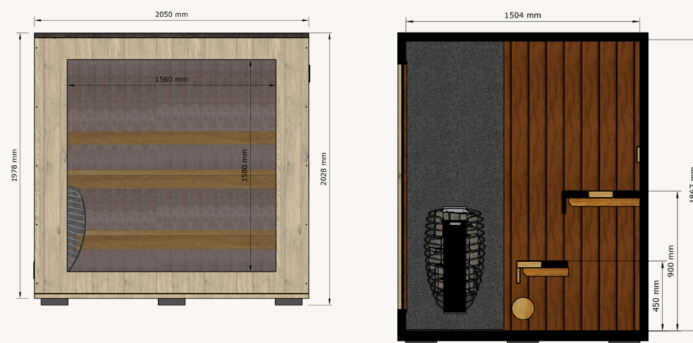

ROYAL S

1304 mm wide

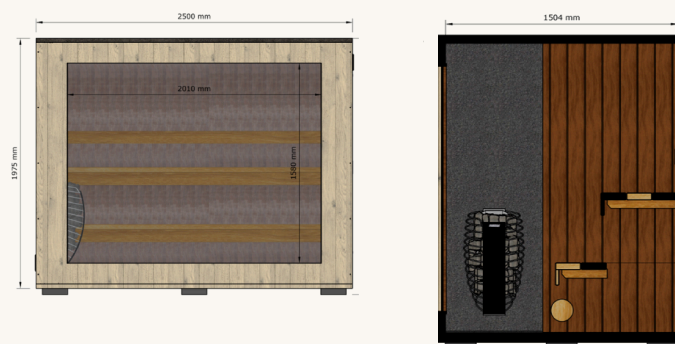

ROYAL M

2050 mm wide

ROYAL L

2500 mm wide

Dimensions in millimetres. Heater shown indicative.
